

CONTENTS

No. 2, NOVEMBER 20, 1937

THIMANN, KENNETH V., and SWEENEY, BEATRICE MARCY. The effect of auxins upon protoplasmic streaming	123
KRUEGER, ALBERT P., and FONG, JACOB. The relationship between bacterial growth and phage production	137
SMITH, EMIL L. The induction period in photosynthesis	151
SHLAER, SIMON. The relation between visual acuity and illumination	165
CURTIS, HOWARD J., and COLE, KENNETH S. Transverse electric impedance of <i>Nitella</i>	189
CROZIER, W. J., WOLF, E., and ZERRAHN-WOLF, GERTRUD. Intensity and critical frequency for visual flicker	203
CROZIER, W. J., WOLF, E., and ZERRAHN-WOLF, GERTRUD. Critical illumination for response to flickered light, with dragonfly larvae (<i>Anax</i>), in relation to area of eye. Plate 1 . .	223

	PAGE
JAMESON, ELOISE, and ROBERTS, DOROTHY BROWN. A phase rule study of the proteins of blood serum. III. Globulin. .	249
