---

- 381 MICHAEL L. JENNINGS and A. K. SOLOMON. Interaction between phloretin and the red blood cell membrane
- 399 ENRIQUE JAIMOVICH, ROQUE A. VENOSA, PETER SHRAGER, and PAUL HOROWICZ. Density and distribution of tetrodotoxin receptors in normal and detubulated frog sartorius muscle
- 417 ALAN R. ADOLPH. Putative synaptic mechanisms of inhibition in *Limulus* lateral eye
- 433 R. DIPOLO, J. REQUENA, F. J. BRINLEY, JR., L. J. MULLINS, A. SCARPA, and T. TIFFERT. Ionized calcium concentrations in squid axons
- 469 G. HOOPER and D. A. T. DICK. Nonuniform distribution of sodium in the rat hepatocyte
- 475 CHARLES R. BADER, FRITZ BAUMANN, and DANIEL BERTRAND. Role of intracellular calcium and sodium in light adaptation in the retina of the honey bee drone (*Apis mellifera*, L.)
