VOLUME 74 · NUMBER 1 · JULY 1979

---

- 1 BRENDA R. EISENBERG and ARIEH GILAI. Structural changes in single muscle fibers after stimulation at a low frequency
- 17 FRANK BAYLIN. Temporal patterns and selectivity in the unitary responses of olfactory receptors in the tiger salamander to odor stimulation
- 37 FRANK BAYLIN and DAVID G. MOULTON. Adaptation and cross-adaptation to odor stimulation of olfactory receptors in the tiger salamander
- 57 G. DROOGMANS and R. CASTEELS. Sodium and calcium interactions in vascular smooth muscle cells of the rabbit ear artery
- 71 A. W. KIRBY. The effect of strychnine, bicuculline, and picrotoxin on X and Y cells in the cat retina
- 85 M. J. MULVANY and D. M. WARSHAW. The active tension-length curve of vascular smooth muscle related to its cellular components
- 105 SANDY I. HELMAN, WOLFRAM NAGEL, and RICHARD S. FISHER. Ouabain on active transepithelial sodium transport in frog skin. Studies with microelectrodes
- 129 MICHAEL ADLER, ANTONIO C. OLIVEIRA, EDSON X. ALBUQUERQUE, NABIL A. MANSOUR, and AMIRA T. ELDEFRAWI. Reaction of tetraethylammonium with the open and closed conformations of the acetylcholine receptor ionic channel complex
