

CONTENTS · THE JOURNAL OF
General Physiology

VOLUME 75 · NUMBER 1 · JANUARY 1980

- 1 TOMIYUKI HARA and REIKO HARA. Retinochrome and rhodopsin in the extraocular photoreceptor of the squid, *Todarodes*
- 21 A. L. SORENSON, DONALD S. WOOD, and LEONARD B. KIRSCHNER. Electrophysiological properties of resting secretory membranes of lamelibranch mantles. Interaction between calcium and potassium
- 39 AMY B. MACDERMOTT, ELIZABETH A. CONNOR, VINCENT E. DIONNE, and RODNEY L. PARSONS. Voltage clamp study of fast excitatory synaptic currents in bullfrog sympathetic ganglion cells
- 61 W. ALMERS and C. M. ARMSTRONG. Survival of K^+ permeability and gating currents in squid axons perfused with K^+ -free media
- 79 M-L. HERNANDEZ-NICAISE, G. O. MACKIE, and R. W. MEECH. Giant smooth muscle cells of *Beroë*. Ultrastructure, innervation, and electrical properties
